WOMEN IN FRANCE TO HAVE THE VOTE

TO HAVE SUFFRAGE IN LOCAL
AFFAIRS BEFORE THE END
OF THE YEAR.

HUGO TEETH DISAPPEARED

France to Raise 1,000 Brass Guns
That Have Been at Bottom of
English Channel Since 1692.

PARIS, Feb. 28.—Women in France will probably have the ballot in local affairs before the end of the present year, according to Ferdinand Buisson, president of the Universal Suffrage Commission, which is composed of forty members of the French Parliament and which has reported favorably on the subject to the Chamber of Deputies.

The General Parliamentary elections this spring will decide whether suffrage will be extended to women and if so whether to the full extent of national suffrage or with limitation mainly to municipal affairs. The question will be one of the first to come before the Chamber of Deputies.

When the question was brought before the new Chamber of Deputies last fall M. Buisson alone was delegated to draw up a report on the subject, and his report has since met the entire approval of the Commission. It is in part now before the chamber. It includes translations of large portions of the debate upon the same subject in the United States Senate and House of Representatives showing the progress of the women's movement there in recent years. It points out that in all the countries where total or partial woman's suffrage has been in force during the last ten, fifteen, or twenty years, there is not a single case of an attempt to revise or restrict the rights already granted. "I think I can prophesy with a certainty," says M. Buisson, "that there will be a majority in the new chamber in favor of giving the vote to women in France. We already have some 250 certain votes in the Chamber as it is constituted even at present and I feel confident the General Elections will return the extra fifty votes necessary for us to carry the house."

M. Buisson's report besides dealing with the controversial side of the question of votes for women supplies the machinery, approved of by the commission, for bringing woman's suffrage into force. This merely consists of the addition of the three words "of both sexes" to an article of the French suffrage law of April, 1848. An additional article limiting the vote will be placed before the house for consideration if desired. It reads: "The modification of the preceding article does not apply to the election of deputies for which male electors only are eligible."

"The adoption of the second article," says M. Buisson, "will restrict woman's suffrage to so-called municipal affairs. It will, however, give

"TIZ" FOR SORE, TIRED FEET--AH!

"TIZ" Is Grand for Aching, Swollen,
Sore, Calloused Feet
or Corns.

"Pull, Johnny, Pull!"

Ah! what relief. No more tired feet; no more burning feet; no more swollen, hot, smelly, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet, or what under the sun you've tried without getting relief, just use "TIZ." "TIZ" is the only remedy that draws out all the poisonous exudations which puff up the feet. "TIZ" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "TIZ." Get a whole year's foot comfort for only 25 cents. Think of it.

'LIGHT BOMB' AID TO NIGHT AVIATORS

AUSTRIAN INVENTORS HAVE
PERFECTED DEVICE TO AID
AVIATORS AT NIGHT

VALUABLE DURING WAR

They Drop Bomb at a Height of 500
Yards and it Lights Country
Up for Miles Around

BERLIN, Feb. 28.—Two Austrian inventors announce the perfection of a "light bomb" which will make safe the landing by airplane at night. The device, which is attached to an airplane and may be released at will, is fitted with a parachute and burns four minutes, illuminating all the country below. In a recent test the bomb, released at a height of 500 yards, lit up the country for a radius of about a mile and a half, so brightly that the aviator had no difficulty in seeing his landing place. The device can also be used in warfare for night work at night, the airplane above the light being invisible.

Such a device has long been needed, for up-to-date aviation is calling for flights at night in order to break long distances light records and to take advantage of wind-still hours. Most of the competitors in the last Grand Prize race in Germany accomplished parts of the flight at night, but this was so hazardous that a number of the aviators were killed in trying to land in the dark.

RADIUM FOUND IN A GARBAGE WAGON

TOOK EX-RAY PHOTOGRAPH OF
PATIENT TO LEARN WHETHER
HE HAD SWALLOWED IT.

LIVERPOOL, Feb. 28.—Search for a garbage wagon which was about to be hauled away from the Liverpool Infirmary, recently, brought to light \$5,000 worth of radium.

Two tubes, one containing thirty and the other fifty milligrams of radium, had been applied to the face of a patient at the infirmary. When a member of the staff came to remove the radium the next morning the larger tube was missing. The most minute search was made, the patient even being photographed by X-ray to see if he had swallowed the tube. It was suggested that the tube might have fallen out of the dressing and had been swept out with the ward sweepings. These had been placed in a garbage wagon which was on the point of being driven away when Professor Wilberforce of the University of Liverpool searched the garbage, a bucketful at a time, until the twelfth bucketful resulted in the recovery of the tube.

OWEN ADDRESSES VIRGINIANS

Delivered Address to Progressive
Democratic League
RICHMOND, Va., Feb. 28.—United States Senator Robert L. Owen, of Oklahoma, delivered an address to-night before the Virginia Progressive Democratic League, which will open its business sessions tomorrow. Senator Owen discussed "Initiative and referendum." Secretary of State William J. Bryan will speak tomorrow night on "progressive democracy."

STRIKERS AND POLICE CLASH

Government to Forcefully Cause Dis-
solution of Trade Unions.

MADRID, Feb. 28.—Reports of frequent clashes today between police and strikers in Lisbon were received tonight by the Spanish foreign office. The Portuguese government, the report said, was considering the forcible dissolution of the trades unions.

Earlier advice was to the effect that a revolution was in progress in Portugal. News, however, in relation to the alleged uprising is meager.

WON'T ABOLISH THE CHINESE PROVINCES

MUCH OPPOSITION TO WIPING
OUT OLD BOUNDARY LINES IN
CHINESE REPUBLIC

HAS POPULAR GOVERNMENT

Illustrates That the New Republic Is
No One-Man Affair as Many
Claim.

PEKING, Feb. 28.—The proposal to abolish the present provincial divisions of China and substitute instead a larger number of administrative districts, both in the administrative control and in the legislative, that President Yuan Shih-kai has decided to postpone indefinitely further consideration of this matter. The plan originated with the Foreign Affairs Department.

The ex-president used his proposal as the best and surest way of speeding reconstruction of China. As he said when he first proposed it, the great weakness of the present administration lay in the fact that the provinces remained as detached from the central government, national spirit was subordinated to provincial and local sentiment. "China remained to all intents and purposes a collection of large provincial entities with no active voice in the direction of national affairs. It was this view which caused the proposal to find favor with President Yuan Shih-kai, who has try-

LEAVE UNIVERSITY FOR PRACTICAL TRAINING

UNIVERSITY IS THEORETICAL SO
TWO JUNIORS LEAVE MISSOURI
STATE SCHOOL

SPOKANE, Wash., Feb. 28.—To supplement university theory with practical work in the orchard, P. H. Shepard and H. E. Humphrey, juniors in the University of Missouri, have come all the way from Columbia Mo., to Spokane to prepare to hire out as common workmen. When they arrived here they had funds sufficient for one meal, so they decided to begin acquiring practical experience at once.

The young men plan to spend six months in the apple districts of the Pacific northwest before completing their course in horticulture at the middle western university. "We want to go right out into the orchards and see how they do it," said Mr. Shepard. "We are going to get jobs under some practical orchard man and learn how to spray, prune, pick and pack apples. We are looking for jobs now and we need them right off, as our funds are getting low. We have traveled 1,500 miles to get to Spokane, which we knew to be the center of the apple industry, and we want to learn the business right."

Shepard's home is in Kansas City and Humphrey originally from St. Louis. Shepard's father, J. E. Shepard, owns a small orchard tract in Kootenai county, Idaho.

"We have put in two years and a half at the university and decided we had better some practical work," said Humphrey. "We intend, upon graduation, to follow our work in the Pacific northwest and concluded it was a good plan to know something about the methods here first. We will go back to college next September."

MORE TRUNK MAKERS QUIET

Refuse Recognition to Industrial
Workers of the World.

ST. LOUIS, Feb. 28.—The number of trunk makers on strike in St. Louis was increased to 350 today when employees of a second factory walked out when recognition of the Industrial Workers of the World organization with which the trunk makers are affiliated, was refused. The workers in one factory walked out several days ago. At the largest factory in the city none of the men struck today but threats were made that they would quit work when their employers formally refused to recognize the union.

World's Champs Training.
JACKSONVILLE, Fla., Feb. 28.—Twenty members of the world champion Athletics headed by Harry Davis, veteran coach, reached here early today. Manager Connie Mack and pitcher Eddie Plank arrived yesterday.

Entries in Lawn Tennis.
NEW YORK, Feb. 28.—The entry list of the nations for the Davis international lawn tennis challenge cup will close March 2. This announcement was made today by R. D. Wrenn, president of the United States Lawn Tennis association.

NO ALCOHOL USED ON THE POLAR TRIPS

TEA AND COCOA ONLY DRINKS
USED BY THE SHACKLETON
EXPEDITION.

ALL PREPARATIONS MADE

Laying Extensive Plans for the Ex-
ploring Dash to the South
Pole Region.

LONDON, Feb. 28.—Total abstinence from alcoholic stimulants will be strictly observed during Sir Ernest Shackleton's trip across the south polar continent. He and his men propose to work long hours, including eight hours marching every day, but for stimulants they will rely on nothing stronger than tea or cocoa. The tea will be taken at midday to refresh on the men for afternoon march, and the cocoa the last thing at night to preserve the body heat during the hours of sleep. Sugar will figure largely in the rations. On his last expedition Sir Ernest and his companions took two or three lumps of sugar every two or three hours and he says ten minutes after eating they could feel the heat going through their bodies.

The men thus far chosen for the expedition are between 30 and 41 years of age. Shackleton who is 39, believes that men are at their best between 25 and 40. A man, he says, does not reach his full strength until

DUOFOLD Davenport Beds

You will really have two rooms in one—
a living room by day, a sleeping room
at night, if you buy a Duofold. A Duofold Davenport is real economy, it
saves furnishing an extra bedroom for an unexpected guest. We have one to
match your furniture, in black or Spanish leather, Black or Spanish Moroccan
fine, with solid oak frames finished Golden, Early English or Fumed, ranging
in price from \$15.00 to \$25.00, \$1.00 cash, \$1.00 per week.

Removable all metal Flour Bin
China closet of ample size
Extra shelf in china closet
Rippled glass doors
Glass Sugar Bin—it's removable
McDougall daily reminder
Large roomy work cupboard
Rack for extract bottles, etc.
Glass cereal and spice jars
Rack for spice jars
Molding board of proper size
Full sliding table top—nickle plated
Deep divided cutlery drawer
Extra long linen drawer
Rack for towels, etc.
Sanitary wire sliding shelf
Big roomy utensil cupboard
Rack for rolling pin
Metal bread and cake drawer
Sanitary legs of proper height
Copper ferrule leg bindings
Ball bearing casters
